If you are one of the many alumni living in Auckland, there is now a Chapter of University of Otago Alumni just for you. As part of the Auckland Chapter, you will have more opportunities for engagement and connection in your area. Alistair Ward of Campbell MacPherson Ltd is one of the leaders of the Chapter, and, he says, “the rationale behind the startup of an Auckland Chapter is that Auckland is the biggest population and employment centre in New Zealand.”

He adds, “I have been working with a core alumni team for several years who are keen to build tangible links between Auckland alumni and the University of Otago in Dunedin. Our objective is to reconnect the diaspora of alumni working and living in Auckland so they can give a little back to help build a stronger world class University for the next generation.”
